Take control and get ready to push yourself with the DW-H5600 — from the tough, sports-oriented G-SQUAD line of G-SHOCK watches. These multi-sport watch comes packed with functions for tracking all kinds of workouts. Measure your heart rate with the optical sensor and use the accelerometer to count steps.

You can tap into the Polar™ smartwatch library to analyze workouts, track post-sleep recovery, and support breathing exercises — even use the oximeter to measure blood oxygen levels. Whether running, walking or working out, this essential gear features a high-definition Memory in Pixel (MIP) LCD for a high-visibility, easy read wherever you are.

Authentic fitness and health goes along with caring about the environment, too. That's why we've made the bezel and band from bio-based resin. Produced from renewable organic materials, biomass plastics are high-molecular, chemically or biologically synthesized materials that help reduce environmental impact and shift the world closer to a circular economy. Charge with either USB or solar, and you'll always stay on your game.

Heart rate measurements for the active life

Running, walking

- Distance, speed, time, pace
- Heart rate, calories burned, etc.

Gym workouts, interval training

- Time
- Heart rate, calories burned, etc.

Displays daily log of activity in an easy-to-understand format. Users can adjust training level to suit current cardio load status, as well. **Daily number of steps and calories burned/Daily activity times/Cardio load status**

Displays level of workout recovery from sleep and provides advice on improving exercise and sleep. Check the sleep quality graph to see how much quality sleep you get at night. **Sleep recovery level/Tips for exercise, sleep, etc./Sleep stage graph**

Variety of visuals and graphs, including map display of routes travelled, make it easy to check activity history. **Route travelled (when using GPS tracking from a connected smartphone)/Measurement data list/Linked display of measurements, graphs and routes/Lap data**

Specification:

- Shock Resistant
- Carbon Core Guard structure
- 200-meter water resistance
- Bio-based resin band
- Charging system compatible with dedicated cable (requires device with Type-A USB terminal) & Solar powered
- Auto time adjustment
- Approximately 300 world time cities
- Notification function (incoming calls, incoming e-mails, new social media posts, calendar notifications, reminders)
- Training analysis data
- Activity history
- Life log data
- Distance correction by smartphone GPS
- Sleep analysis data
- Phone finder
- Moon data (moon age of the specific data, moon phase)
- Sunrise, sunset time display Sunrise time and sunset time for specific date
- 1-second stopwatch
- 4 daily alarms with snooze ,Smart alarm (with snooze)
- Power Saving (display goes blank to save power when the watch is left in the dark)
- Battery level indicator
- Using activity functions (heart rate): Approx. 35 hours max. Using in watch mode with heart rate measurement OFF: Approx. 1 month Using with power-saving function ON: Approx. 11 months * Varies depending on usage environment; from full charge, without solar power.
- Airplane mode
- 12/24-hour format
- Regular timekeeping: Hour, minute, second, am/pm, month, date, day
- Vibration on/off

G-SHOCK

ABSOLUTE TOUGHNESS

MULTI FLUORESCENT

Bold black meets vibrant colour in these tough G-SHOCK watches with fluorescent accents.

The matte black bezel and band contrast stylishly with touches of vivid blue, pink, and yellow on the hands, hour markers, and dial marks, transporting you to a virtual world. Playful and bold, these designs will crush in any fashion scene.

Choose your favourite of five timepieces — the GA-100, GA-110, or GA-700 with large case; the GA-B2100 with octagonal bezel plus Bluetooth and solar charging; or the GX-56 digital watch with large case. Cool matte black and fluorescent colours come together in a stand-out pairing. Which one do you want?.

Specification:

- Shock Resistant
- 200-meter water resistance
- resin band
- Magnetic Resistant
- Approx. battery life: 2 years on CR1220
- World time 29 time zones (48 cities + coordinated universal time), daylight saving on/off, home city/world time city swapping
- 1/1000-second stopwatch
- Countdown timer
- 5 daily alarms (with 1 snooze alarm)
- Hourly time signal
- LED light Auto light switch, selectable illumination duration (1.5 seconds or 3 seconds), afterglow
- Full auto-calendar (to year 2099)
- 12/24-hour format
- Regular timekeeping: Analog: 2 hands (hour, minute (hand moves every 20 seconds)), 1 dial (speed) Digital: Hour, minute, second, pm, month, date, day

G-5600BG-1DR

Join us in a whole new challenge to mark the April 12 birthday of G-SHOCK. Celebrate G-SHOCK and commit to the environment with the compelling design of the G-5600BG made with recycled waste resin.

Honoring the G-SHOCK commitment to the environment, the G-5600BG features a bezel and band that make the most of resin scraps left over from the manufacture of other bands and bezels. Waste resin in classic G-SHOCK red and yellow is powdered and kneaded in a matte black base to create a unique, subtly colorful pattern. This special design will take you wherever you want to go — from everyday fun to high fashion.

With this model, the G-5600, equipped with Tough Solar that charges the watch from sunlight, gains a bezel and band made of recycled urethane, reducing the environmental impact of resin scraps that would otherwise be discarded. Celebrate the G-SHOCK birthday and honor our environment with eco-friendly materials and functions that leave a smaller footprint.

Caution: Individual Differences in Products Due to the characteristics of mixed material color of resin, there are individual differences in the pattern, color tone, and distribution/amount of color resins on the surface of each part (bezel, band) for each timepiece.

Specification:

- Shock Resistant
- 200-meter water resistance
- Resin Band
- Tough Solar (Solar powered)
- 5 World time 31 time zones (48 cities +coordinated universal time), daylight saving on/off, Home city/World time city swapping
- 1/100-second stopwatch
- Countdown timer
- 5 daily alarms (with 1 snooze alarm)
- Hourly time signal
- LED backlight (Super Illuminator)
- Battery level indicator
- Power Saving (display goes blank to save power when the watch is left in the dark)
- 12 months on rechargeable battery (operation period with normal use without exposure to light after charge) 22 months on rechargeable battery (operation period when stored in total darkness with the power save function on after full charge)
- 12/24-hour format
- Date/month display swapping

A compact G-SHOCK in a boldly straight-forward design that moves style into the future. The tough digital GD-B500 goes smaller and slimmer to meet today's needs, delivering just what you require from a watch in a minimalist design with a futuristic sensibility. With a case measuring just 46.3 mm in diameter and 11.0 mm slim, this G-SHOCK is significantly smaller than past models. Even this small, it comes equipped with Bluetooth, solar charging, and a step tracker so that you can easily take control of your daily exercise. Choose classic black or white, or go with the GD-B500S-3 in dynamic fluorescent yellow with translucent band connectors. Effortlessly stylish, the GD-B500 holds the key to all-new possibilities with G-SHOCK.

Specification:

- Shock Resistant
- 200-meter water resistance
- Bluetooth: Connects to a smartphone and automatically adjusts the time
- Approx. battery life: 2 years on CR2016
- Step Count Measurement: Step count display range : 0 to 999,999 steps
- Step goal progress display (step count goal setting range: 1,000 to 50,000, 1,000-step increments)
- Step reminder (Inform you when your step count is too low, by display and beep)
- Step count graph (Hourly step count for the past 7 hours on a 6-level graph)
- Step indicator
- Auto time adjustment
- Easy watch setting
- Approximately 300 world time cities
- Life log data
- Stopwatch data transfer
- App information
- Time & place
- Phone finder
- Low battery alert
- Full auto-calendar (to year 2099)
- 1/100-second stopwatch
- Dual time (home time swapping)

G-SHOCK

ABSOLUTE TOUGHNESS RUGGED ELEGANCE

GM-B2100AD-2ADR

GMW-B5000D-2DR

Full-metal shock-resistant structure: Staying true to origins and constantly innovating

Forged bezel and case: Crafted with a passion for refinement down to the finest details

Dial finishes for a look of intricate refinement

Hairline and mirror finishes

Smartphone Link

Solar-powered timekeeping with Bluetooth® for enhanced accuracy and reliability

Add a touch of color to your classic style — a full-metal G-SHOCK with vibrant blue dial. The dial is finished in metallic blue vapor deposition, adding a striking touch of originality to the iconic stainless-steel bezel and band design. Buffering components made of fine resin are installed between the bezel and case, with a three-pronged structure dispersing shocks to the band's connecting pipes, to deliver all the shock resistance of a G-SHOCK in a full-metal timepiece. And the case back features a screw-lock construction to ensure a tight seal. The metal band pieces are dimpled to reproduce the look of the resin band design of the very first G-SHOCK. The stainless-steel bezel is meticulously forged, cut, and polished for stunning depth and dimension. A hairline finish is applied to the bezel top and a mirror finish to the beveled edges, creating a smart metal timepiece that truly shines.

Specification:

- Shock Resistant
- 200-meter water resistance

TEAM LAND CRUISER TOYOTA AUTO BODY collaboration model

Are you ready for one tough piece of outdoor gear? Casio and Toyota team up for another collaboration that brings Team Land Cruiser Toyota Auto Body (TLC) and G-SHOCK together for something very special.

This timepiece imbues the MUDMAN, known for delivering peak performance in the most punishing conditions, with the spirit of challenge that defines TLC, a veteran of the toughest race in the world, the Dakar Rally.

The MUDMAN GW-9500, with its Carbon Core Guard structure, is a smaller, slimmer watch that is both dust and mud-resistant. It also features a duplex LCD, giving you exactly what you need to meet every challenge.

Designed to capture the feel of racing through desert sands, the sand-colored band is printed with a black splatter pattern that evokes tracks left by speeding racers. The stainless steel bezel components — a first for a GW-9500 model — are ion plated in black to project a bold fearlessness that exudes both strength and practical luxury.

The duplex LCD offers a separate compass graphics layer for a larger digital compass display, allowing you to navigate more easily to your destination in emergency situations. Radio-controlled calibration delivers the precision time that teams fighting under the toughest conditions need to succeed.

The TLC team colors — blue, white, and red — accent the design, and the team logo on the band and case back adds the final touches for a singular collaboration that celebrates these two intrepid teams.

TEAM LAND CRUISER TOYOTA AUTO BODY

The company team of Toyota Auto Body, a Toyota Group manufacturer of minivans, commercial vehicles, and SUVs. TLC has been participating in the Dakar Rally, considered the world's most extreme rally, with the Land Cruiser every year since 1995

Go bold and bright. Get out and explore the great outdoors! Get the PRO TREK PRG-340SC with dual-layer LCD, featuring environmentally responsible materials.

This is the first PRO TREK timepiece with a Dura Soft band made from reused resin scraps left over from manufacturing processes. In keeping with the PRO TREK commitment to reducing environmental impact by using sustainable materials, reused resin scraps are an excellent complement to a line of watches.

Taking its cue from the PRG-340, key components for the case, rotating bezel, and case back are made with bio-based resin. Produced using renewable organic resources, this material is another way to help reduce environmental impact.

Not just nature loving, but practical, too. The Triple Sensor delivers compass bearing, barometric pressure, temperature, and altitude readings. The dual-layer LCD ensures outstanding visibility of compass graphics shown on the top layer and various measurements on the large display on the bottom layer.

Triple Sensor (digital compass, barometer/altimeter, and thermometer) senses natural changes

Tough Solar powered for converting light to energy

Super Illuminator (high-brightness full-auto LED backlight) for maintaining watch readability in the dark

Dura Soft band made with reused silicone resin materials. PRO TREK connects with nature

Specification:

- 10bar water resistance
- Solar-powered
- Digital compass
- Barometer/Altimeter
- Thermometer
- Low-temperature resistance (-10°C/14°F)
- World time 31 Time zones (48 cities)
- Sunrise/sunset time display
- 1/10-second stopwatch
- Countdown timer
- 5 daily alarms
- Full-auto LED backlight (Super Illuminator)
- 12/24-hour format
- Regular timekeeping: Hour, minute, second, pm, month, date, day
- Duplex LC display

Soak up the shimmer of a timepiece inspired by gorgeous summer sunsets. The glitter of the sun going down over the water at the end of a beautiful summer day is captured using vapor deposition in a lustrous gradation of new colors on the dial. We begin with the GMA-P2100, an even more compact version of the popular digital-analog combination GMA-S2100, and adjust the length of the band to better fit slimmer wrists. We eliminate the original 9 o'clock inset dial for a streamlined, minimalist look, and use stainless steel for the buckle and side buttons to add a touch of luxury.

Key resin components used in the bezel and band are made with bio-based resin. Produced using renewable organic resources, this material is expected to help reduce environmental impact. New colorways bring luxe resort flair to your wrist and wardrobe, while environmentally responsible materials keep the beauty of the beach front and center.

Specification:

- Shock Resistant
- 200-meter water resistance
- Bio-based resin band
- Approx. battery life: 3 years on CR1025
- World time 31 time zones (48 cities + coordinated universal time), daylight saving on/off
- 1/100-second stopwatch
- Countdown timer
- Double LED light
- Button operation tone on/off
- 12/24-hour format
- Hand shift feature (Hands move out of the way to provide an unobstructed view of digital display contents.)
- Regular timekeeping: Analog: 2 hands (hour, minute (hand moves every 20 seconds)) Digital: Hour, minute, second, pm, month, date, day
- Full auto-calendar (to year 2099)

Soak up the sparkle and shine of life at a summer beach resort with an all-white shimmery G-SHOCK. We start with a pure white base and finish the dial and index marks in a silvery vapor deposition to make these watches shine like the sun reflecting off the ocean. A gleaming silvery fashion accessory to be adored — the perfect sun-kissed timepiece to get your summer started!

Make a statement that's both bold and practical with a timepiece featuring a large display and utilitarian colors.

Beige and green with accents in earthy hues and orange set a stylish outdoorsy tone for a dial that delivers high visibility and an easy read.

Complete with water resistance up to 50 meters, a 7-year battery, LED backlight and other handy functions, these watches are always at the ready.

Specification:

- 5 bar water resistance
- Daily alarm
- Hourly time signal
- Resin Band
- 1/100-second stopwatch
- Approx. battery life: 7 years on CR2016
- 12/24-hour format
- Regular timekeeping: Hour, minute, second, pm, date, day

EDIFICE

NIGHTTIME DRIVE SERIES

Love the feeling of cruising along darkened roadways? The glow of headlights and streetlamps cutting the deep blue of the night sky? Then you'll love this EDIFICE timepiece designed to capture the mood of nighttime driving, made just right for the auto enthusiast.

The thrill of driving city streets late at night is captured in the brilliantly gradated color of the bezel — the night sky reproduced above in blue ion plating and the glow of lights below in the silver color of titanium carbide processing. This two-color gradation process renders a stunning bezel with an exquisite shine and is echoed on the dial's components, as well.

This nighttime take on the ECB-40 SOSPENSIONE, a timepiece modeled on the configuration of a formula car suspension, features a carbon fiber-reinforced resin case for a lightweight comfort your wrist will love.

Sync with your smartphone via Bluetooth® for effortless watch operation and precision timekeeping. Simply tap on the app to easily select world time cities and effortlessly manage other handy functions.

EDIFICE SOSPENSIONE

Take control of speed and intelligence with a solar-powered analog-digital combination EDIFICE.

Inspired by formula car suspension, the SOSPENSIONE ECB-2000 is the first EDIFICE with a carbon fiber-reinforced resin case, thanks to a unique case design that arranges the lugs in a four-arm configuration. The lugs too are reinforced with carbon fiber, bringing the true motorsports spirit to both the design and the materials of this timepiece.

It's a snap to sync with your smartphone via Bluetooth®. Tap into the dedicated app to access the to-the-second precision timekeeping that is so important for racing teams, and to effortlessly manage world time and transfer stopwatch data measured to the millisecond to your smartphone. The LED Super Illuminator light makes viewing the analog-digital face a non-issue, and the Tough Solar system keeps you charged and running even high-load functions with just a small amount of light.

Elevate your style game with the MTP1302D-1A1V. This timeless simple silver watch features a black dial that is complemented by luminous hands and markers, providing easy readability in low-light conditions.

It is designed with a sleek stainless steel case and band, making it both sophisticated and durable. With its reliable quartz movement, the MTP1302D-1A1V guarantees accurate timekeeping, so you can stay punctual wherever you go.

The date display located at the 3 o'clock position adds practicality to this already impressive timepiece, ensuring you never miss an important appointment or deadline.

Designed to withstand everyday wear, this Casio watch boasts water resistance up to 50 meters, providing peace of mind during unexpected encounters with water.

Whether you're heading to the office, attending a formal event, or enjoying outdoor activities, this timepiece is built to accompany you on any occasion.

VINTAGE

HERITAGE COLORS

Take a step back to 1983 with a timepiece that pays respect to the world's thinnest calculator in its time, the Casio SL-800.

A revolutionary calculator no bigger than a credit card, the eight-digit SL-800 paved the way for much more to come.

Casio revives this iconic design in timepiece form, bringing the original '80s touch to the ever-popular A168 — by using the retro black and gold base colors of the SL-800, and even the same accent colors used for the time display numbers and other details.

Vintage flair meets contemporary style for a timepiece as eye-catching as it is nostalgic.

SL-800

At 85 mm x 54 mm, the eight-digit SL-800 calculator was astonishingly slim, at just 0.8 mm, and light, at 12 g. The calculator represented the pinnacle of the digital technologies that made possible a new era of slim, lightweight, compact products. It also laid the foundation for Casio development of state-of-the-art high-density mounting technology. In 2013, the SL-800 was designated an Essential Historical Materials for Science and Technology (or Future Technology Heritage) by the National Museum of Nature and Science in Tokyo, as a calculator with an extraordinarily slim, compact form.

Edifice - Speed & intelligence

Limited Edition

ECB-2000 series

- Collaboration model
- Great for motorsports
- Keeps yourself in time
- Stable solar power
- Find your phone
- Easy to see in darkness
- 100 meters water resistant
- Case / bezel material: Resin / Stainless steel / Aluminum CORDURA® Band
- Tough Solar (Solar powered)
- Sapphire crystal with glare-resistant coating
- Mobile link (Wireless linking using Bluetooth®)-CASIO WATCHES App
- Black ion plated bezel

Model No.	ECB-2000NIS-1ADR
MRP	34995/-
CIC Code	ED579
